Dear Parents

**Year 7 into Year 8 Mathematics Setting**

I am writing to inform you that due to band changes and movement throughout the year there has become a need to adjust student numbers in some maths groups as they move from Year 7 into Year 8.

It is therefore possible that some students may move up or down a set. If this is likely to affect your child their teacher will endeavour to communicate this with them before the end of term.

Throughout Key Stage 3 there are termly assessments in Mathematics that will enable us to track the progress of individual students. These, combined with professional judgement of teaching staff, will inform decisions around which set students are placed in. Groups are subject to review throughout the year and there may be movements between sets to ensure all students are in a class that best matches their learning needs.

If you require further information, or have any queries, please do not hesitate to contact me.

Yours sincerely

Ms R Butterworth  
Key Stage 3 Leader: Mathematics
