

Tadcaster Grammar School

*'A Culture of Excellence'*

Dear Parents

**Year 6 Transition Days and hot weather guidance**

We are very much looking forward to welcoming the 2018/19 Tadcaster Grammar School Year 7 cohort to school for their transition days.

The weather forecast suggests the two days are likely to be very warm therefore we'd like to offer the following guidance to students and families:

- Students are encouraged to bring water bottles. There are fountains around the school where students will have the opportunity to refill their bottles during the day.
- Students should apply sunscreen before they come to school and may bring some more to 'top up' as necessary.
- Students are encouraged to bring a cap/hat with them to shield them from the sun when outside during the day.

In terms of break and lunchtime, many students love to enjoy our fabulous school field, but please rest assured that there are plenty of areas of shade on its edges where students can sit and are encouraged to do so.

Yours sincerely

Mr S Wren
