September 2018

Dear Parents

### **Technology – KS3 Food and Textiles**

During Years 7, 8 and 9, as part of their work in Technology, students spend half a year studying Food and the other half of the year studying Textiles. A variety of practical tasks will be set, some ingredients and materials being provided by the Department.

We should be grateful if you would make a contribution of £22 via Parent Pay towards the cost of the materials supplied. This will also cover costs incurred in packaging, sundry items and food for tasting sessions.

For parents/carers of students who have been advised they are eligible for Pupil Premium, the costs will automatically be taken from their Pupil Premium funding, therefore no action is required.

Would you please note that food or ingredients not collected from Food Technology rooms following practical lessons will be disposed of at the end of each working week.

Thank you for your co-operation.

Yours sincerely

J Joslin  
Head of Technology
