September 2018

Dear Parents

GCSE Mathematics Revision Materials

The Mathematics Faculty is able to obtain revision materials for Year 11 at a significant discount. This year we will be offering a variety of resources which your child can come and have a look at before you order. These resources are the same as those we offered last year and therefore this is an opportunity to purchase any resources you do not already have.

We have the traditional guides produced by Collins that consist of notes and worked examples on all topics and then followed up with questions and problems accompanied by answers. All the material is available for Foundation and Higher Mathematics tier students and is priced at £4.10.

Corbettmaths are a website that we strongly encourage our GCSE students to use as it has many videos and practise questions. They have produced a set of Foundation and Higher revision cards for students. There are 90 detailed, engaging revision cards, each card links by QR code to its own Video; there are over 10 hours in total! Each card also has its own set of GCSE examination questions and solutions and are priced at £7.60 for the set.

If you would like to order any of the above for your child, please log on to parent pay via the school website to pay by Sunday 30th September. For parents/carers of students who have been advised they are eligible for Pupil Premium, all relevant materials will automatically be purchased. We will inform you of the collection details when we have received the stock.

If you have any queries about the contents of this letter please do not hesitate to contact me.

Yours sincerely

Mr J Bellwood
